

January 11, 1927.

Professor J. R. Faison,
Wadesboro, N. C.

Dear Professor Faison:-

Your letter of January 7th to Mr. Newbold has been referred to me for reply. It would be quite an undertaking to supply you with a list of all the colored schools which have been built in the State during the last two or three years. We have built 250 in that time. We have built quite a number in towns of the size of Wadesboro. These have ranged in cost from \$15,000 to \$50,000. Your good town should spend at least \$20,000 on a new building.

If there is any specific information that you would like, this office will be glad to supply it.

Very sincerely yours,

W. F. CREDLE
Supervisor Rosenwald Fund.
